

# Downham School

We will provide a safe, secure, colourful and creative learning environment.

We will equip pupils with the skills and voice necessary to take their role in society.

We will deliver a challenging and varied curriculum within a happy, caring and purposeful atmosphere.

**At Downham we are proud of our school and we are committed to the development of each individual.**

**We see every activity as an opportunity for communication and learning, and strive to maximise and celebrate the achievements of all.**

**We encourage respect and acknowledge diversity in ourselves and others.**

**We appreciate the contribution of every member of our community and strive to create a safe but challenging learning environment promoting the independence of every learner.**

We will provide opportunities for everyone to develop a healthy lifestyle.

We will develop each pupil's individual potential allowing them to contribute fully to the life of the school.
